

DRES Technology/Chromebook Student Agreement

For grades 3-5 at DES, grades 2-5 at RES

While we hope you enjoy using your Chromebook this year, we need you to follow a few guidelines.

I agree to:

- **Carry** my Chromebook appropriately
- **“Park”** and **“Drive”** my Chromebook appropriately when asked
- Stay on-task, open the websites and apps my teacher tells me to, when he/she tells me to.
- Only use my own device, only use my own accounts (including Google).

I will respect my Chromebook by being gentle with it:

- I won't touch the computer screen with my fingers or anything else
- I won't put anything on the keyboard but my fingers (pencils, pens)
- I will make sure it's plugged in every night at school, so it can be ready to go the next day

I will respect the use of the Internet by:

- Following Smart Internet Safety Rules!
- Being a Good Cyber Citizen!

I understand that my teacher will be walking around and monitoring what I do on my Chromebook:

- If my teacher asks me to close the lid and **“park”** my Chromebook, I will close it.
- If my teacher asks me to put my Chromebook away, I will put it away safely.
- Only open the websites and apps my teacher tells me to. After one warning, if I go off-task again, my Chromebook may be taken away.
- I will not touch the computer screen with my fingers.
- I will not put anything on the keyboard but my fingers (pencils, pens, etc.).

If I have trouble following these expectations:

- I understand that my Chromebook may be taken away, my parents might be contacted, and I could lose my Technology Use Privileges for a class period, a day, or even more time.
